Hi guys,

CGTrader, one of the leading 3D model marketplaces in the world with over 1.2 million users, has started the Digital Art Competition, which welcomes all CG artists (both 2D and 3D):

<https://www.cgtrader.com/digital-art-competition> !

Upload up to three works to each of the available six categories: Character Illustration, Character Concept Design, Environment Illustration, Environment Concept Design, Object Design, and Object Concept Design. All submissions will also have the opportunity to achieve the Public Award nomination.

There are no entry fees, and artworks do not have to be created exclusively for the competition, so feel free to show everyone your best and favourite works. For more details, visit the competition page and be sure to check out the Categories & Prizes section!
