corners wont fillet correctly

Послан Billabong - 26.01.2011 07:22

Ive been following the game pad tutorial and im trying to fillet my corners for the number "4" but every time i do it it destroys it.

Would you mind taking a look at this file Kodg and tell me what im doing wrong

thanks so much

Thanks for checking that file Kodg.

Would you mind explaining a little more about selecting the edges more accurately? I thought I had selected the edges that were suppose to be filleted. Sorry. I'm just a little confused

Thanks so much for the help

-B

edit: Nervermind Kodg. It worked for me this time. Thanks so much for all your help
